Cure With Care

Company Profile

Cure With Care

# Company Introduction

Glitz Pharma is situated in industrial triangle in Islamabad the capital of Pakistan. In this industrial triangle there are various Pharma industries along with Glitz Pharma Islamabad. The head office of Glitz Pharma is located at college road Rawalpindi. The total covered area is 18132.005 square feet. Glitz Pharma is committed to produce supreme Quality products by the strict compliance of the rules of cGMP, by application of WHO guidelines and the clauses of ISO 9001:2008 in all aspects of manufacturing of Glitz Pharma products.

## GLITZ Pharma

**Location & Surrounding:** Glitz Pharma is situated in the industrial area of Islamabad in an environment favorable for manufacturing process and minimum risk of causing any contamination of material or product, the location of the Plant complies with the GMP requirements.

**Size:** The total area of premises 30128 square feet

**Building Layout, Design & construction:** The building layout and designing of the production area of the Plant is in accordance with the GMP requirements to minimize the risk of errors, facilitate good sanitation and feasible for effective cleaning and maintenance to avoid cross contamination, dust or dirt which could adversely affect the product quality. The production area is designed and well equipped to provide protection against the entry of insects and other animals. The construction of the floor, wall and ceilings of all the production related areas fulfill the requirements and the piping, light fittings and ventilation points are designed accordingly.

**Storage Areas:** The storage areas of the Plant are properly defined and segregated according to various categories of material & products, the storage areas are designed to ensure good storage conditions that fulfill the storage requirements of drug under controlled temperature and humidity. The storage area in the Plant is segregated into different categories and identified accordingly e.g. Quarantine Area, Sampling Area, Released Material Area, Rejected Material Area, Special

Material Area and Dispensing Area. All the areas are provided with the facilities to fulfill the GMP requirements.

**Production Area:** The production area of the Glitz Pharma has been designed to allow the production to take place in areas connected in a logical order corresponding to the sequence of the operations. The adequacy of the working area and in process storage space permits the orderly and logical placement of equipment and material so as to minimize the risk of confusion between different products thus avoiding cross contamination. The interior surfaces (floor, wall & ceiling) are smooth and free from cracks and open joints to permit easy and effective cleaning. The production areas are effectively ventilated with air control facilities appropriate to the product handling, the environmental conditions of these areas are monitored on daily basis to ensure the compliance of the GMP requirements. The production area has dedicated facility for parenteral, syrup, dry suspension, capsulation and tablet production cream and ointments. Moreover it has also further segregation in psychotropic drugs, antibiotics and general pharmaceutical products to provide complete separation in production to avoid cross contamination in the drugs.

**Ancillary Areas:** All the ancillary areas like Workshop, Changing Rooms, Cafeteria & Wash Rooms/ Toilets are separated from the production area and fulfill the GMP requirements.

# Cure With Care

## CEO's Message

Who can enhance healthy living of individuals by promoting care?

At, "Glitz Pharma" for us, there is no higher priority than enhancing the quality of life of our people by providing best care-oriented medications, produced under a strict managed environment, and for this "Glitz Pharma" has grown from strength to strength in the last few years, as the long term vision and strategy of the Management has come to fruition.

Our Company is a national enterprise, a broad-based medical innovator, equipped with leadership in technologies and businesses across the boundaries of health care.

is a national enterprise, a broad-based medical innovator, equipped with leadership in technologies and businesses across the boundaries of health care.

Our goal at "Glitz Pharma" is very simple; create value by providing the Best Medications to the Individual across the Globe and spread health with care.

We don't take our success for granted. People at "Glitz Pharma" understands the nature of their job and the result of hard work, a commitment to excellence and a desire to make a difference in all that we do. We are proud of our achievements, and we will continue to work hard to deliver on our promise. Over the past few years, we have aggressively expanded both our geographic reach and our range of products. We believe we have the most motivated, talented and competent people working in our all departments and our storied experience in the region helps us understand the market dynamics and local sensitivities of our each new salt we launch. Through the admirable efforts of our team we now cover not only the national territory but we have already expanded to reach and communicate "Glitz Pharma" Message of Life Saving Drugs by knocking at the several International boundaries of the Nations.

"Glitz Pharma" is a blend of my passion for healing my experience as an entrepreneur, and my belief that people are more important than profits. We've infused these qualities into our approach to create a pharmaceutical Company like no other.

**Munawar Hussain**  
**President & Chief Executive Officer**

# Our Vision

## Our VISION

- To be the quality Landmark in the pharmaceuticals Industry having high-tech facility.
- Delivering High Quality Products with the state of Art & Technology.
- Focusing on unmet medical need.
- Aiming to enrich patient's quality of Life.

## Our MISSION

To better the lives of our patients and our people. We will achieve our vision by having professional and motivated staff who can deliver quality products and processes using state of the art technology aiming for long term profitability while maintaining customer satisfaction.

## Our VALUES Integrity

We are honest with ourselves and others. We keep the highest ethical standards in all dealings.

### Trust

We trust, respect and support each other, And we strive to earn the trust of our partners, colleagues, consumers, customers and suppliers.

### Diversity

We are always ready to learn from others and respect the diverse cultures in which we work.

### Teamwork

We work as one team to achieve our vision and mission.

### Quality Focus

At Glitz Pharma, we commit to consistently manufacture high quality products. We aspire to excel on this dimension, and set the benchmark for superior quality.

### Impact Oriented

We aspire to create an environment where the focus on impact is a relentless pursuit. We believe in persistently measuring results and progress, and seeking impact in everything we do.

### Collaboration

Successful teamwork can only be achieved through close collaboration. We realize the complexity of the pharmaceutical

industry, and the interdependencies inherent to our work. We also work closely and jointly with health authorities and regulators.

### Courage to do what's right

We will always do what is right for all our stakeholders, irrespective of the implications. We understand the necessity to sometimes make difficult choices, and to lead by example.

### Transparency

We believe in openly sharing our knowledge, our experience, and our opinions. Every contributor at Glitz Pharma will always feel comfortable expressing his point of view, especially to dissent. We are convinced that our company and our people will thrive in an open and transparent environment.

### Respect for work life balance

Our roots as a family-owned business make this an enduring value at Glitz Pharma. Our management approach is to be understanding and flexible to preserve our employees' work-life balance.

### Efficiency

We strive for efficiency in all aspects of our operations. We are consistently mindful of the resources deployed, the value of time and how efficient execution betters our work environment.

### Personal growth

Each employee is unique; and we believe it is our responsibility to help unlock their potential. We invest in our employees by fostering the proper environment for their personal growth, and creating exciting professional development opportunities for them.

### Autonomy

Every Glitz Pharma employee is empowered to think, make decisions and act in full autonomy. We expect our teams to proactively take responsibility, and we encourage them to be as independent as possible.

### Ethical

Being ethical is a corner-stone of Glitz Pharma values. We aspire to uphold the highest ethical standards in everything we do, without compromise.

# ISO 9001-2008 Certified

The quality policy of Glitz Pharma is to prevent, mitigate and cure the human illness with quality pharmaceutical products at an affordable price.

Glitz Pharma is dedicated to enhance the image and performance of the firm by manufacturing pharmaceutical products of excellent quality, efficacy and safety appropriate for their intended use.

The Company aims to improve the processes, products and services continually to deliver with highest professional standards, thereby providing a competitive advantage to the customers and end-users. The company will ensure maximum customer satisfaction and quality improvement at all times.

The Company will achieve this objective by procuring raw materials from highly reputed national & international suppliers, ensuring compliance with the guidelines of WHO Good Manufacturing Practices and the requirements of Drug Administration Authority. Glitz Pharma is also committed to use the latest equipments and advanced technologies in the production process, deliver the product within the shortest possible time, adhering to the requirements of ISO 9001:2008 quality management system.

Glitz Pharma is also committed to enhance the knowledge and skill of the company personnel through providing adequate training as per individual training needs and extending effective services to the customers in a timely fashion and cost effective manner. In absence of specified requirements the company is guided by the best management practices and ensure that customer complaint and defects are reported, investigated and rectified promptly for customer delight.

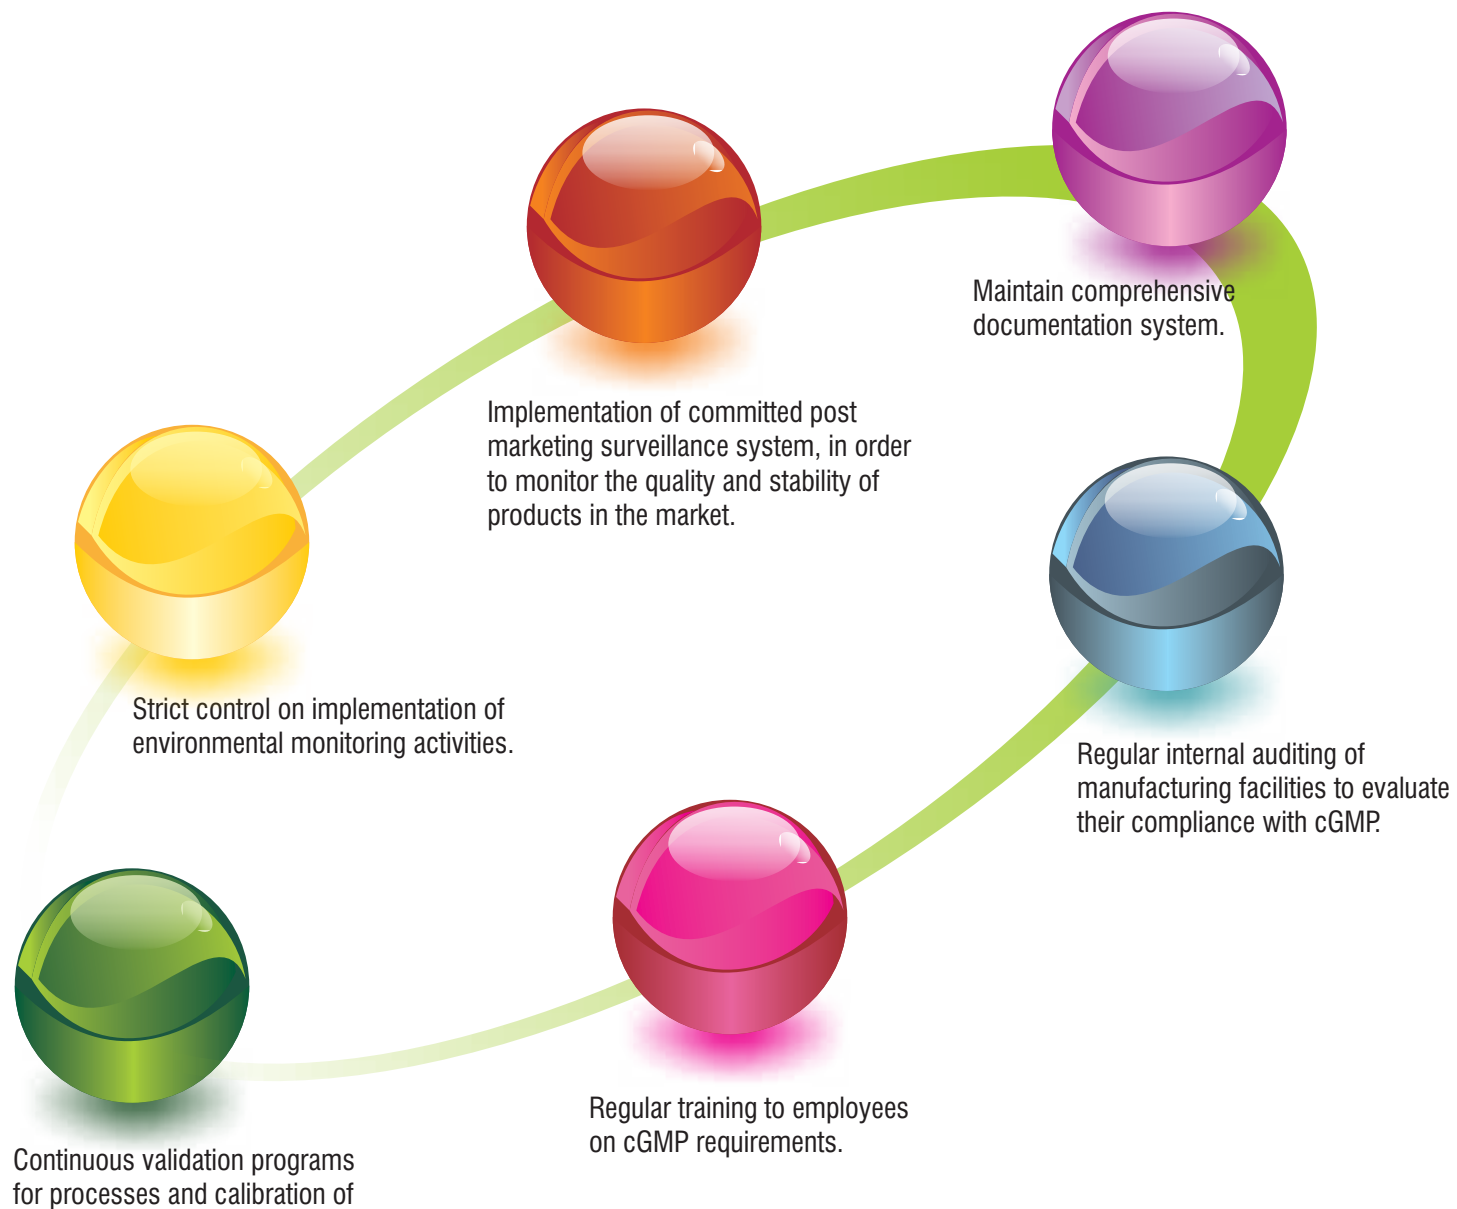

# Quality Policy

# Quality Control Department

At Glitz Pharma we have well established, comprehensive, quality management system as per cGMP guidelines in line with the requirement of medicine regulatory agencies worldwide. Quality Control and Assurance at Glitz Pharma are maintained through well-equipped laboratories capable for analyzing raw and packing materials, intermediate and finished products. Glitz Pharma continues to invest in Bio-equivalence and post marketing surveillance studies to ensure its customer satisfaction.

The main activities are:

At Quality Control labs, we strictly ensure that the ultimate products consistently meet established standards for identity, purity, quality, efficiency and safety.

The QC Laboratory is managed by qualified Chemists, Pharmacists & Microbiologists and is well equipped with following sophisticated instruments such as:

- HPLC (High Performance Liquid Chromatography)
- UV-Visible Spectrophotometer (Shimadzu Japan)
- Atomic Absorption (GBC Avanta Australia)
- Disintegration Test Apparatus
- Dissolution Apparatus
- Analytical Balance
- Electronic Balance
- Ultrasonic Bath
- Karl Fischer
- Magnetic Stirrer
- Oven
- PH Meter
- Refractometer
- Tablet Friabilator
- Moisture Analyzer
- Burette Digital
- Melting Point Apparatus
- Colony Counter
- Vacuum Pump
- Incubator
- Laminar Flow Cabinet
- Binocular Microscope
- Muffle Furnace
- Refrigerator
- Stability Chamber
- Hardness Tester

# HVAC

Heating, Ventilation, and Air Conditioning System

Glitz Pharma has DX Type Air Handling Units (Double Skin Type) With Air Cooled Condensing Unit. Detail specification.

DX Type Air Handling Units are double skinned including provision of Dust Filters, Pre-Filters, Return/Supply Bag Filters Section, Mixing Chamber, access doors on the units, drain tray, DX cooling coil, reheat electric heater, blower motor, statically dynamically balanced forwarded curved type blowers, thermostat and all accessories.

Air Cooled Condensing Units have complete heat exchange Coils, propeller Fans with motor, reciprocating/scroll compressor, high/low pressure controls, ambient control, filter driers, powder failure relays, timer, and magnetic contractors/over loads.

## UNIT BASE:

The unit base is made of sheet steel finished with 2-layer epoxy paint and there are 35mm lifting holes on it. Base height is 75mm.

## FILTERS:

The filter chambers are designed for easy mounting and demounting. The following types of filters are used.

## PRE-FILTERS

Normally, Class EU3 or Class EU4 synthetic filters in configuration are used as pre-filters. For EU3 Class filters the maximum capacity is 20000cfm.

## BAG FILTERS

These filter s are made of synthetic media with filtration qualities of EU5, EU6, EU7, 9 F-6 and F-9 Classes. For bag filters the maximum allowable air flow changes with bag length and pocket number. According to the airflow of AHU, bag length and number of pockets are determined.

## FANS

The supply and return fans are statically and dynamically balanced, belt driven, double inlet centrifugal fans. In system with low medium and high duct pressure forward curved fans are used. In high pressure system double inlet fans with backward curved centrifugal fans can be used as well. Fans are supplied with flexible connections between the fan and discharged outlet and unit casing and fan motors are mounted on rubber vibration absorbers, in the unit casing. The power supply for fan motor is 380V, 50HZ and protection and insulation classes for the motors are Ip54 and F respectively.

## COOLING COILS

Manufactured from seamless copper tubes, mechanically expanded into Aluminum Fins. DX (Direct Expansion) or chilled water type to suit the client needs. Drains pan and drain pipes are supplied as standard under the cooling coil. To avoid water carry over at high velocity, made of galvanized blades, is mounted after the cooling coil.

Comprehensive HVAC system is working. The air handling system is fully equipped with filters of different shapes, sizes, porosity and efficiency as per requirement i.e. mesh fillers, bags filters and 0.2  $\mu$  HEPA filter with 99.990 and 99.997 efficiency. HVAC system also equipped with temperature and humidity control system. The air handling units are working twenty four hours to maintain continuously positive pressure inside the section to avoid any contamination in the area. The pressure differentials between rooms are adjusted such a way that it maintain above 0.06 water inches from critical to non critical area.

# Water Purification System

Glitz Pharma has a comprehensive water purification system (schematic diagram is attached) the water is collected from deep well and then it passes through water softener, De-Ionizer and distillation plant. The distilled water is collected in a big stainless steel tank and it is circulated round the clock by monitoring the temperature above 80°C. In plant purified water is used as per the specific requirement, and so it is supplied throughout the plant accordingly. The quality of the water is regularly monitored at each purification stage i.e. from source De- Ionized water and distilled water etc.

## Testing Specification

Clarity:	Clear, Colorless liquid.
Odor:	Odorless
pH:	5.0 to 7.0
Calcium/Magnesium:	Negative
Chloride:	Negative
Sulphate:	Negative
Conductivity:	NMT 5 Microsemin

The capacity of De-Ionized water is 15 liters in one minute. All the pipes and containers, containing distilled water are made of stainless steel material. During circulation it is continuously filtered through 0.45um filter.

# Environmental Policy

Glitz Pharma has a strong commitment to produce Pharmaceutical products of the highest quality while operating in a safe, Environment-friendly, socially responsible and accountable manner.

Glitz Pharma, like every business, has an impact on the environment. We are working towards limiting that impact by educating our staff and encouraging them to think about their effect on the environment in everything they do.

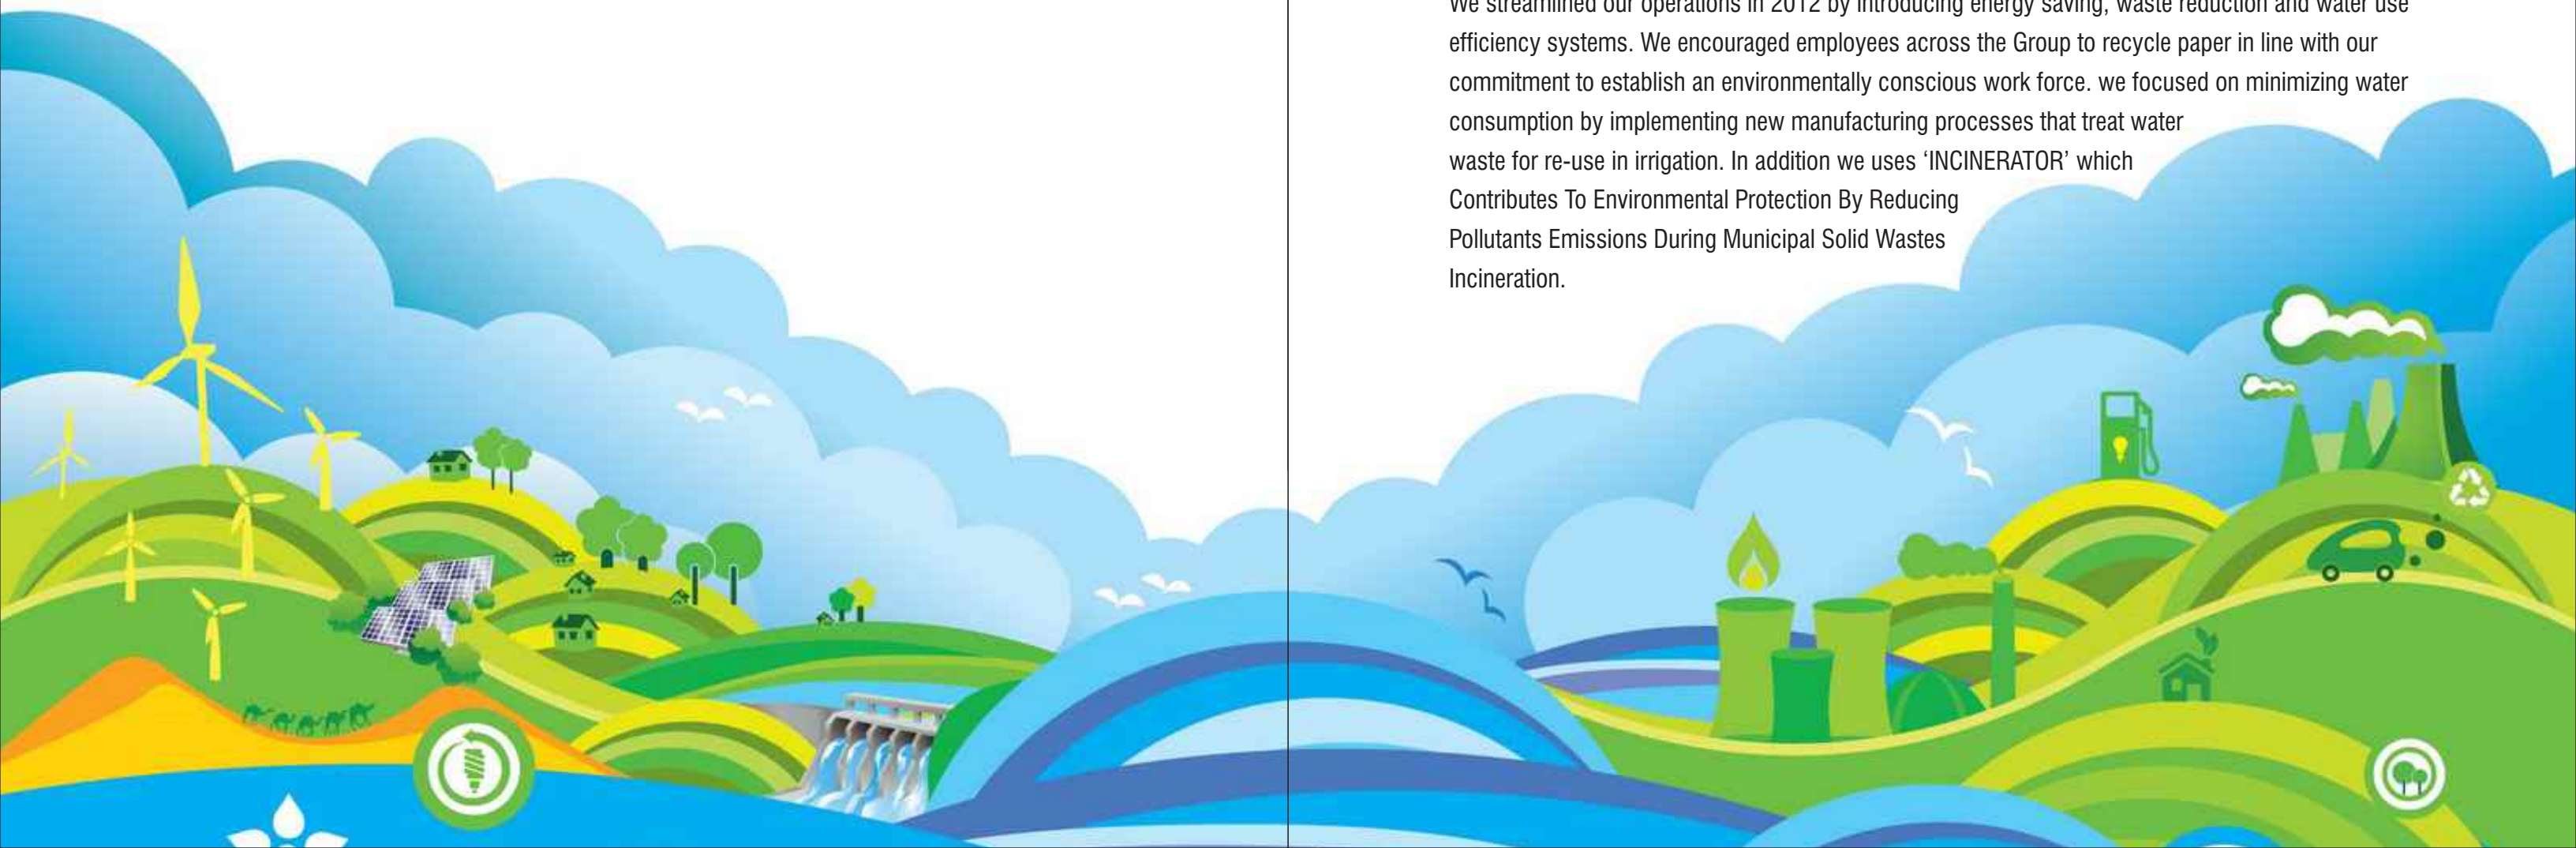

GLITZ Pharma *Environmental Policy's* four key objectives

- To integrate our environmental policy across the Group.
- To reduce our impact on climate change.
- To comply with environmental legislation and regulation.
- To strive for continuous improvement in our environmental protection and to complete the process of implementation of ISO.

We strive to protect the natural environment focusing in particular on minimizing waste, carbon emissions, monitoring and reducing energy usage and minimizing demands for water consumption. We are dedicated to minimizing our impact on the environment across our businesses, while at the same time meeting our corporate and business requirements to reduce costs and operate more efficiently.

## Energy, Waste & Water

We streamlined our operations in 2012 by introducing energy saving, waste reduction and water use efficiency systems. We encouraged employees across the Group to recycle paper in line with our commitment to establish an environmentally conscious work force. We focused on minimizing water consumption by implementing new manufacturing processes that treat water waste for re-use in irrigation. In addition we use 'INCINERATOR' which contributes to environmental protection by reducing pollutants emissions during municipal solid wastes incineration.

# Sections of Manufacturing Plant

Glitz Pharma has the capacity to produce following types of dosage forms while the process involved in the production of the dosage forms are as under:

Process						
Dry oral Production				Skin	Liquid Oral Production	
Tablets	Capsules	Dry Suspension	Sachets	Cream/Ointments	Syrup	Suspension
Mixing	Formulation	Formulation	Formulation	Formulation	Formulation	Formulation
Granulation	Mixing	Mixing	Mixing	Mixing	Mixing	Mixing
Compression	Encapsulation	Filling	Filling	Milling	Filtration	Milling
Coating	Blistering	Packing	Blistering	Filling	Filling	Filling
Blistering	Packing		Packing	Packing	Packing	Packing
Packing						

Glitz Pharma has the license for production of pharmaceutical products. So all related activities to cop-up the production of Tablets, syrup, dry suspension and capsules and Cream/Ointment are carried out in the company's premises.

Glitz Pharma has in house facility for the manufacturing of its all registered products. The company has established a strong sale and marketing segment for promotion of its valued products.

Glitz Pharma also involve in contract manufacturing with same reputed pharmaceuticals companies in Pakistan.

## Indications

- ➔ MDR Typhoid Fever
- ➔ Urinary Tract Infections (complicated / uncomplicated)
- ➔ Gonococcal Infections
- ➔ Uncomplicated Gonorrhea (cervical / urethral)
- ➔ Otitis Media
- ➔ Pharyngitis
- ➔ Tonsillitis
- ➔ Acute Exacerbation of chronic Bronchitis

## Dosage

Adults 400mg daily  
Children: 8mg/kg/day

Usual treatment duration: 7 to 14 days

### Typhoid Fever

200 mg BID or 400 mg OD for 7 to 14 days

### Uncomplicated UTI

100 mg BID or 200 mg OD for 7 to 14 days.

### Uncomplicated Cystitis

200 mg BID or 400 mg OD for 3 days

### Uncomplicated Acute Pyelonephritis

200 mg BID or 400 mg OD for 14 days

### Gonococcal Infections

Single 400 mg dose

# Megit

7.5mg  
15 mg  
Tablets

(Meloxicam)

## FDA Approved Treatment

### Excellent Analgesic & Anti-Inflammatory Effect as with Older NSAID's:

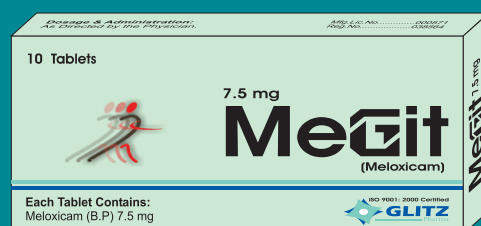

Clinical trials have shown that meloxicam at 7.5 & 15 mg/day is as effective as diclofenac, piroxicam and naproxen as an anti-inflammatory and analgesic, and was associated with fewer GI adverse effects

(Expert Opinion on Drug Metabolism and Toxicology, Volume 1, Number 4, 1 December 2005 , pp. 739-751(13))

### Superior Safety Profile in Comparison with Older NSAID's: [ Br J Rheumatol 1998 Oct; 37(10):1142]

## G.I Safety

Better than Diclofenac with Regards to G.I Adverse Events.

## PRODUCT LIST

Glitz Pharma is a national enterprise, a broad-based medical innovator, equipped with leadership in technologies and businesses across the boundaries of health care. Our goal at "Glitz Pharma" is very simple; create value by providing the Best Medications to the Individuals across the Globe and spread health with care. We invest in our customers' success by listening and finding ingenious solutions. When our customers succeed, we all succeed.

### Expanding our reach

We are always looking for established companies across the globe to expand our reach with broad outlets covering countries / territories. Due to quality in our domain, companies from South-East Asia, North America, Gulf and West Africa have shown great interest and we are up-to the mark to establish our relations to potential buyers / distributors who do not sell cheap but have expertise to market our quality products with success. Our doors are open for new distributors-come-partners to expand internationally but ethically.
